

CCAL has moved!!! We are now located in Peavy Hall on the OSU campus. Our email addresses are still the same.

See new mailing address, sample mailing requirements and phone numbers below.

Phone:

Kathryn Motter: Office 541-737-5120, Lab 541-737-5121

Cam Jones: Office 541-737-5122

(voicemail picks up after eight rings)

Effective immediately, samples should be sent to:

CCAL / College of Forestry

Oregon State University

Peavy 048/056

Corvallis, OR 97331

Important sample shipping notes:

- FedEx and UPS are no longer delivered directly to the lab; packages go to a central OSU disbursement facility.
- Packages sent UPS and priority FedEx are delivered once daily to CCAL. Packages shipped otherwise may not reach CCAL until the following day unless tracking and shipping information is provided so that we can arrange to pick up the samples from the central facility.
- It is very important that sample packaging is marked with “refrigerate upon receipt” or “freeze upon receipt” (mark refrigerate if mix of fresh and frozen samples). Advanced notice prior to shipping will help ensure proper receipt of samples.

Please contact us if you have any questions. Please forward this information to anyone who may find it useful.

Thanks for your continued support!

Kathy and Cam

Kathryn Motter

CCAL Laboratory Manager &

IWW Collaboratory Manager
